

Ordinance - #10
Public Utilities
Approved June, 1976

Section 1. A public Utility shall be defined as any installation having anything to do with communications equipment or the distribution or collection of gas , electricity, water or sewage.

Section 2. It shall be a misdemeanor to enter into or upon, or to tamper with, any public utility or the premise thereof.

Section 3. Such misdemeanor shall be punishable by a fine of \$50 to \$100.

Section 4. All public utilities shall provide proper protection of their facilities to insure that access to said facilities by unauthorized persons is made as difficult as can be reasonably expected.

Section 5. Such protection shall be inspected periodically, and shall be maintained functional at all times.

Section 6. Failure to provide or properly maintain such protection shall be subject to a fine of \$50 for the first offense and \$100 for each successive offense.
