

MINUTES OF PLAYGROUND COMMITTEE MEETING

February 23, 2017

The Meeting was called to order by Jim Laurino at 7:20 pm, and was held at the BWVC. Attending were Carl Falco, Jim Laurino, and Larry Walker.

There was a discussion on needed work on the playgrounds, and it was decided initially to purchase 20 cu. yds. of playground mulch, as some areas under playground equipment had insufficient coverage at this time. According to Jim, there is \$2,000 remaining in the Committee's budget for the present Fiscal Year. Larry Walker will order the mulch, and monitor its delivery. He was also directed to hire a worker to spread the mulch under the playground equipment.

A playground safety inspection is required for the period February-March, and this will be done at the normally scheduled time for the Playground Committee Meeting. Thursday, March 2, 2016 is the next scheduled Meeting, which will be at the BWVC.
