arranged.

The problem of unsafe corners has been

road was blasted in order to put in the

Walter Holman, Principal of the Arden School
read a letter from Dr. Miller outlining the proposed legislation that would change the per pupil allotment of students per teacher to 30 for 25. This would mean that there would be fewer teachers for the Arden School. There was considerable discussion of this legislation and it was decided to send letters to Representative Barry, Harry Mayher, Speaker of the House, the Barstow, Representative Clifti, and Sen. Nelson, Senator, protesting the move.

The following resolution was
Unanimously adopted: That the Order Town Assembly read its firm opposition to any legislation proposing to allot allocations of funds to various school districts of the state, so it is certain that such allotments of funds would result in deterioration of our state educational system at a time when its strengthening and expansion are most necessary.

Be it further resolved that a special town assembly be called consisting of residents of Allentown and Order to participate to discuss further protest against the proposed allotment of school funds.

"The Game Warden has stated that all dogs must be licensed."

Sam Angley reported on the proposed plan of the Highway Department to fill acres of open bottom land to the Colorado Tidal Basin Co., for the erection of a heat furnace. After some discussing about the effect of a heat furnace in this area, the following motion was made and passed unanimously:

"That the Order Town Assembly record its unanimous objection to the sale of state owned rice bottom lands to the Colorado Tidal Basin Company for the expansion of its plant. Any such land sale must be held and open public hearing are held and the entire transaction openly discussed prior to the consummation of the sale."

(Resolution was sent to Governor Boggs, Messrs. Maguen, Bartholew, Nelson and Reece.)
