They continued into the August meeting for the report of the Assessors to come to some agreement about the assessment as they had been elected in November.
There was considerable discussion concerning the advisability of having the Assessor's assessment and the Budget handled at the August meeting. It was pointed out that it would be necessary to know the assessment before the Budget could be drawn up. A proposal to hold the Assessor's report until the October meeting to give them time to study the problem of the assessments met with disfavor.

A motion was made and passed that the Assessor's report be accepted but that the July Town Assembly would be continued on August 7.

The continuation of the July 21, 1933 meeting of the Town Assembly, which was held in the Field Hall in August 7 and preceded one by Trustee W. A.

The information, and business of the July meeting. The report of the Board of Assessors was presented by, amended later.

The tax rate was raised from $1.25 per 100 square feet to $1.29 per 100 square feet. A $40 per 100 sq. ft. is added to those lots which have more than one road front and an area of 20,000 sq. ft. or more.

There was considerable discussion about adding the $40 additional for two roads on larger lots. The Assessors explained that they felt the larger lot with two roads has the advantage over a smaller lot because any lot over 2,000 square feet can be divided into two lots.

There was discussion concerning the way the Assessors arrived at the capital value of land. The Assessors had used 5% as the rate of interest. Mr. D. O. Stephens questioned this figure because money cannot be borrowed at less than 5% at the present time.

The Assessors were asked if they had considered the land rental values in Abercorn and Aberdeenshire which is 3.30 per 100 square feet for the rate. William Frail said that the Assessors had considered the two communities, but felt that neither community had democratic procedure of government. Therefore they could not be assessed the same way. Donald Stephens at H.D. Ward, this...
of the Trustees of Ardentown said that the Trustees of Ardentown consulted a real estate expert to arrive at the assessment figure in Ardentown.

The Assessors were asked whether all members had taken the oath of office as required in the By-laws. The Assessors stated that all the new members had taken the oath, but that those who had continued in office had not done so because since they were replacing themselves, they felt that taking the oath once at the beginning of their term of office answered the requirements of the By-laws. It was moved and seconded that the report of the Assessors be accepted.

The meeting was motioned to adjourn.

Respectfully submitted,

Mary Mulry
