The regular meeting of the Town Assembly
of Allens was held on September 5, 1967
with Trustee Ware presiding.

After a quorum was declared present
the minutes of the June 27th meeting
were read and approved.

The financial report of the Trustees
was read and approved as a copy is on file.

Mr. Ware presented the minutes of
a special meeting of the Trustees and the Commissioners
held on September 5 and attended by members
of the Budget Committee, Civil Committee and
Safety Committee. The Trustees reported
that even with the funds available from
municipal street and judgements
right away which amounted to $2,645.78
and amount of rents outstanding deemed
collectible in October there was not enough
money in the Trustee Fund to pay taxes
amounting to $43,834.88.

A ruling has been received from the Attorney
General advising that money expended at
Police and Marshal protection for July 1, 1966
to prevent may be refunded to the
Trustee Fund from the Street and Fund.

These expenditures amounted to $5,777.53,
even with this money the deficit would be
$2,889.53. Therefore the meeting decided that
some of the outstanding bills would have to be
defensed until 1968 fiscal year and the Civil
Committee and Safety Committee were requested
to carry on all the most necessary work around
the town.

Mr. Ware reported that Mr. Joseph
Rosenthal would not submit a bill for all
the legal work he has done.
A motion was made that a letter of appreciation be sent to Mrs. Rosebud for her work of aid. The motion passed unanimously.

The report of the Trustee was in motion accepted.

Civic Committee report by Mr. Williams reported that Mr. George Kershaw had secured a contract to repair at Marton Lane damaged by the August storm and to repair section of the street near from Sherwood Road to edge of Sherwood Forest. The Civic Committee has been asked to put dues into several farms that seem to have overflowed sewage. Snow removal contract has been given to Harmon & Young for minimum of 500 rods at maximum of $550. The Committee submitted its report for maintenance and for the Budget Committee. The report of motion was accepted.

Assessment. The report of the Budget Committee circulated the budget. The budget was divided into 2 parts: the first budget for the year for payment of road, lighting, etc. was subject to approval by referendum. The second is a proposal for an expenditure from the Municipal Street and Park Expansion Fund. This fund is restricted by state law to roads and police protection only.

It was pointed out that the Budget Committee did not budget any money for roadwork and that the Street and Park money was not available until August.

A motion was made and passed that "1900 be included in the Budget for roads."
and that the Civic Committee be empowered to shift funds from Community to Parks if necessary.

A motion was made and passed to submit the Budget as amended to referendum. No report from Community Planning.

Randall Committee reported 383 voters.

Safety Committee reported that the Safety Code enacted into law in July is now being enforced by the magistrates office. Independence Mill, Seago, Parkhill parking speeding will be installed and these will permit more rigid enforcement of the traffic code. The Safety Committee then contacted Ardtemia Committee to find out how much of the cost of needed equipment like siren, lights, possible new radio system for police they will be willing to share.

It was suggested that a copy of the Safety Code should be placed in the library so that those interested can read it. The report on motion was accepted.

School Trustee reported that Peace Dana is the new School Trustee. The school has 81 students. A music program has been instituted. The school has been painted recently and parents are asked to keep their children from painting on it.

Order Neighbors - no report.

Frank Atkinson has been appointed the Town representative to the Brooklin Council.
An organization. He reported that the Council
was opposing the proposed zoning of the Concept
tract. If the proposed zoning was approved the area
would have twice the density of downtown Wilmington.
The decision on zonmg has been deferred.

Under unfinished business the noise that is caused
by traffic crossing the man hole covers was
discussed. The street engineers should fix them.

The Trustees reported they tried several legal
ways to have the plans redone in progress but
say it is a non conforming use of residential land.

Under New Business the following were
nominated to serve on the Board of Assessors.

Neyv Angell, Alfred Sladstone, Murray Foster,
Carl Van Develle, Tom Bean, Bernard Brathmar,
Donald Stephanie, Frank Henjo, W. Ivan, Monley,
Morris Rodin, John Beck, Frank Starr.

Dogs are running at large and getting into
trash cans. It was felt that residents
should be reminded not to place garbage
uncovered cans.

A letter of sympathy is to be sent to the
children of Birkert Bratmester.

Mr. J.B. Fenkelstein was honored by the
Brandywine Council of Artists because of his
contributions to Delaware.

Adair is well. Adair.

Respectfully submitted,

With Affection

From March 157
