

Safety Committee Meeting 5/9/18

Brooke Bovard, Steve Harcourt, Chris Junk, John DiGiacoma

The committee approved the April minutes.

Signs

John will liaison with the contractor Egali to start installing signposts. We agreed to pay \$20 to replace an existing sign.

Police:

Brooke met with community policing representatives to discuss the coming traffic problems associated with the Marsh Road intersection construction and enforcing traffic laws in the Ardens. They discussed certain problematic neighbors.

The committee discussed a proposal to have police at town meeting. The sense of the committee is that it is not needed. Other options should be explored first.

Traffic:

Brooke talked to a representative of the Brandywine School Transportation. Harvey Road is a main bus route. He estimates ~35 buses a day travel on it.

Cars on Sweep:

Parked cars are still a problem on The Sweep. We plan to install no parking signs.

ADA issues:

Civic continues to make changes to common land that have ADA implications. Brooke filed an ADA complaint.
