

Safety Committee Meeting 7/18/19

Brooke Bovard, Steve Harcourt, Steve Tanzer, John DiGiacoma

The committee approved the April minutes

Cul-de-sacs:

We need to sign the Arden cul-de-sacs:

- Sherri Burke fire lane
- End of Hillside
- End of Highway
- End of Woodland
- End of Cherry
- Pump Path

Signs:

Brooke had a meeting with a representative from TAPCO. They have some very fancy signs but out of our price range.

We need wrong way/do not enter signs around the Green.

Harvey and Orleans

Civic dumped rocks to fill the hole at the corner of Harvey and Orleans. That was intended to be a natural planted feature to help control water runoff.

Parking

We discussed a proposal to have resident parking stickers. We don't know how many cars routinely park in Arden.

The parking enforcement is complaint driven. We should keep a record of chronic parking problems.

Harvey and Marsh:

We need to meet with elected officials to discuss the intersection. Brooke will organize.

Viewing the North Wilmington Moms Facebook page there is pressure from outside Arden to fix the intersection.

DELDOT has not identified it as a problem because there have not been enough accidents.

Offsetting the lights like the Veale/Harvey intersection may mitigate the problem.

The 2010 town meeting determined the intersection at Sherwood and Marsh should be signed "Do not enter-Local traffic only".
