

BWVC Special Meeting Minutes

October 13, 2020

Attendees: Maria Burslem, Pam Cohen, Denis O'Regan, Toby Ridings, Debbi Sheiker, Mary Young

This meeting was called to discuss the installation of A/C units and an air purification system at the BWVC using COVID-19 funds from Arden and potentially from Ardencroft and Ardentown.

Denis reported the following:

Both Ardencroft and Ardentown have unofficially indicated that they will provide funds.

- \$6700 in total from the two villages is needed in addition to the \$10,000 Arden has pledged to fully cover the costs.

Toby stated that the current A/C units were installed in 2009. The old refrigerant is used in these models. It was posed that perhaps these units could be donated. Denis to ask contractor about this possibility, although it was agreed that because of the old refrigerant that may not be possible.

The committee unanimously approved proceeding with the project. Denis will contact the GC to proceed.

Respectfully submitted,

Mary Young

BWVC Secretary
