New Trash & Recycling Information

As you may know, the three Ardens are switching to a new trash service beginning next week, the first week in October. The new carrier is Trash Tech. With this carrier change, Trash Tech will be delivering new trash and recycling totes, and Waste Management will be picking up their empty trash and recycling containers.

Our new service plan will include weekly collection of regular household waste and every-other-week collection of recyclables and yard waste. Yard waste weeks and recycling weeks will alternate. In other words, one week's collection will consist of household and yard waste, and the following week's will consist of household waste and recyclables.

Transition Plan

- Trash Tech will deliver new trash and recycling totes to each address on Saturday, October 2nd.
- We are asking all residents to move the contents of existing Waste Management trash and recycling totes to the new Trash Tech totes for collection this coming week. Please ask for help if needed.
- All residents will put all preferably empty Waste Management totes, both trash and recycling, out for pick up on Tuesday, Oct 5th — our normal trash day.
- Trash Tech's service days will be Wednesdays for Arden and Thursdays for Ardentown and Ardencroft.
- Trash Tech service will begin with trash and yard waste on Wednesday, Oct 6th for the Village of Arden and on Thursday, October 7th for both Ardentown and Ardencroft. Yard waste and recycling will then alternate every other week.

More information will follow, including a general information flier containing recycling and yard waste guidelines as well as contact information for service issues.

Thank you for your cooperation and patience as we transition services.
